

# MAIN ROAD DRAFT TRANSIT CORRIDOR PLAN

## BUS PRIORITY INFORMATION SHEET

### Collins Street, Hobart CBD

#### BUS PRIORITY MEASURE

- Currently buses can experience delays travelling to the Hobart Interchange caused by traffic turning right into Argyle Street. This is due to the length of the right turn queues and the width of the road.
- The removal of two car parks near 60 Collins Street will enable buses to safely pass right turning traffic.

#### BENEFITS

- Additional road width will reduce travel time delays for buses along Collins Street.
